Professional Summary

Aspiring and highly motivated **Java Software Engineer** with a solid foundation in **Java, REST APIs, HTML, CSS, SQL, JDBC, Hibernate, and Spring Boot**. Proficient in developing and testing RESTful services and microservices. Experienced in Manual Testing, MS Excel, and Power BI. Eager to leverage my development and API integration skills in a dynamic team environment. Committed to continuous learning, building scalable applications, and delivering high-quality software solutions. Seeking an opportunity to contribute to innovative projects in a growth-driven organization.

Technical Skills

- **Languages:** Java, HTML, CSS.
- **Frameworks / Libraries:** Servlets, JDBC, Hibernate, Spring Boot.
- **APIs & Microservices:** REST API Development, API Testing (Postman)
- **Databases:** MySQL.
- **Testing:** Manual Testing – Test Case Design, Bug Reporting, STLC, SDLC, RTM.
- **Developer Tools:** Visual Studio, Edit Plus, Eclipse IDE, MS Excel, Power BI.
- **Web/Operating System:** Windows.
- **Technical Proficiencies:** Object-Oriented Programming, Database Management System, Data Visualization.
- **Soft Skills:** Leadership, Problem-Solving, Collaboration.

Education

Bachelor of Engineering in Computer Science   *Ongole*
QIS College of Engineering.   *November 2020 – June 2024*
- CGPA: 7.95

Pre-University Course   *Giddalur*
Sahithi Junior College   *June 2018 – April 2020*
- Percentage: 65%

Secondary School Leaving Certificate (SSLC)   *Giddalur*
Surya Vidhya Nikethan School   *June 2017 – April 2018*
- Percentage: 90%

Project Experience

Project: Privacy-Preserving Medical Data Sharing Scheme Based on Blockchain

October 2023 – April 2024

- Engineered a blockchain-based system to ensure secure and confidential sharing of medical data.
- Implemented cryptographic techniques and smart contracts to regulate access and maintain data integrity
- Enabled patients to control data access while ensuring transparency, security, and efficiency in healthcare data sharing.

Power BI Project – Uber Trip Analysis Dashboard   *March 2025 – May 2025*

- Designed and built a comprehensive Power BI dashboard to uncover insights from Uber trip data, focusing on booking trends, revenue generation, and trip efficiency.
- Implemented advanced features like dynamic measure selection, interactive slicers, tooltips, and conditional formatting for enhanced user experience.
- Conducted detailed location and vehicle-type analysis to support strategic planning and demand forecasting
- Delivered a professional, user-friendly dashboard with bookmarks, dynamic titles, and export functionality to support data-driven decision-making.

Certifications & Training

- Full Stack Java Development Training – **JSpider** (Java, JDBC, Hibernate, Spring Boot, SQL, Web Development)
- Power BI Dashboard Design & Analytics (Self-Initiated Project)

Hobbies

- Playing Badminton
- Traveling and Exploring New Places

Strengths

- Fast Learner & Adaptable
- Positive Attitude
- Creative Thinking

Declaration

I hereby declare that all the information furnished above is true to the best of my knowledge.
